

I think it's shocking that the FCC, which has been established to protect the rights of ALL, is allowing the use of public airwaves for the Sinclair Corp. to coerce its affiliates to drop their regular programming in order to air a propaganda piece in an effort to influence the upcoming election. It is recognized by all thinking citizens that one-sided smears against a candidate is not a "news" program which would be entitled to a free airing, but an effort to use the power of Big Media to change the minds of voters. We call such programming "commercials" and as such they should be so labeled and charged. Please don't allow these forces to undermine true journalism and the proper working of our democracy. Thank you very much.
